CHALLENGES AFFECTING THE ECUCATIONAL SYSTEM IN LIBERIA

The education system in our country Liberia, one of the oldest in Africa, faces significant challenges regarding its effectiveness in meeting the needs of students. This raises concerns about whether it adequately prepares students for academic and career success. In response to these concerns, "HELP Teacher Training Institute (***HELP TTI***)" has developed a fifteen-month teacher training program designed to enhance teachers' skills and techniques. Upon completion of the program, participants will receive a "C" Certificate. The primary objective of this initiative is to equip teachers with modern foundational, content, pedagogical strategies that foster better engagement and management of students while ensuring that all learners sufficiently benefit from the educational experience. HELP TTI aims to inspire passion in educators so that they approach their profession with passion, confidence and purpose, while aligning themselves with HELP's vision to improve the educational landscape with holistic ethical leadership practices in the classroom.

THE STRATEGY

HELP Teacher Training Institute (***HELP TTI***) is stepping in to help breach this serious gap by providing HANDS-ON training sessions (using the revised TTI curriculum) for current and would-be teachers in need of improving their classroom performance.

Courses offered:

Foundations of Education
Subject Contents
Child Development
Pedagogy
Teacher Profile
Practice Teaching
Digital Education
Early Childhood Training/Education
Moral/Ethical Education

Student-Teachers @ work in class

"The problem with education today is that most teachers give out fruit rather than plant seeds."

(*Dr. Howard Hendricks of Dallas Theological Seminary*)
